LOCATION *The City Bakery 3 W 18th St, New York, NY 10011*

I chose The City Bakery because it's got great food, style and it's an experience. Imagine walking into a circus or a fair but it's only food and awesome decor.

CONCEPT An homage to old computer games

As a kid I really enjoyed playing computer games. The kind where you click and search for clues or do math problems while being chased by monsters. I wanted my site to have that feeling, while exploring the cafe at the same time.
